

## **Brattleby Defibrillator.**

Dear Resident,

Following the recent purchase of the above by your Parish Council, a presentation and 'active' demonstration of its use by East Midlands Ambulance Service Paramedic Rob Birkin will be held in the **BSA Village Hall on Wednesday 2nd of September commencing at 7 pm. Tea/Coffee provided.**

It is in the interest of all residents to gain a basic knowledge of this equipment and feel confident in its use. **One never knows!**

Once instruction has been provided, the appliance will be sited in the **Bus Shelter, in a white metal box, mounted at high level to the left, on entering. This will be clearly marked accordingly and accessible at ALL times. A key is not required!**

**A chilling fact.**

**If a person has a cardiac arrest, each minute lost prior to applying a Defibrillator can mean a 10% less chance of survival!  
So 10 minutes?**

**Please ensure at least one person from each household attends, if at all possible.**

Kind regards  
**Brattleby Parish Council.**
