i. Following the receipt of complaints about allotment 544b, a letter had been sent by the Clerk informing the tenant that they were in breach of their tenancy agreement, in that the allotment was uncultivated and had been allowed to become overgrown and was spreading weeds to neighbouring land. Given that the allotment had now been ploughed over by the tenant and given the mitigating circumstances contained in the response received from the tenant, it was resolved to give the tenant a second chance. This was on the condition that the allotment was in future kept in accordance with the Council’s rules and regulations.

ii. Following the receipt of complaints about allotment 16b, a letter had been sent by the Clerk informing the tenant that they remained in breach of their tenancy agreement, in that the allotment was and had been seen to be a poor state of cultivation since at least the beginning of March 2019, it was spreading weeds to neighbouring farmland, and had volunteer potato crops which risked the spread of Potato Blight, including to neighbouring commercial plots. No remedial action was taken by the tenant, nor response received, within the timeframe requested in the letter. A letter was received from the tenant on the morning of this meeting indicating that the tenant felt singled out and unfairly treated. The letter was read out to the meeting and photographs passed around. It was noted that the tenant had previously successfully appealed to the Parish Council against a notice to quit issued on 2nd April 2019.
